Kab. Sukabumi

mw.wildan119@gmail.com

Dynamic web and mobile developer with 7 years of comprehensive experience in crafting robust applications and user-centric interfaces. Proficient in technologies such as PHP, JavaScript, and Flutter, fostering seamless integration of front-end and back-end functionalities. Demonstrated expertise in database management and API integration, ensuring optimal performance and security. A collaborative team player dedicated to delivering high-quality solutions that elevate user experiences and drive project success. Ready to leverage a strong technical foundation to contribute effectively in a challenging new role.

EXPERIENCE

PT. Lenggogeni, South Jakarta

Assistant Fullstack Web Programmer | September 2023 - May 2025

- Developed and maintained web applications using JavaScript/Jquery and Codeigniter (PHP).
- Collaborated with designers to create user-friendly interfaces.
- Conducted code reviews to ensure quality standards.
- Assisted in database management and API integration.
- Implemented responsive design principles for mobile compatibility.

PT. Munjalindra, Bogor

Web & Android Developer | April 2020 - March 2023

- Developed and maintained web applications using Laravel/Codeigniter (PHP), and JavaScript/jQuery.
- Designed and implemented Android applications using Flutter for cross-platform compatibility.
- Integrated RESTful APIs and ensured secure communication using token authentication.
- Managed MySQL/SQL Lite/Postgre SQL databases for efficient data handling.

CV RC Electronic, Bandung

PHP & Android Programmer | June 2016 - January 2020

- Developed and maintained Android applications using Java.
- Built dynamic web applications using CodeIgniter and WordPress (PHP-based CMS).
- Implemented interactive web features using JavaScript and jQuery for improved user experience.
- Integrated various databases including MySQL, PostgreSQL, SQLite, and SQL Server to support application functionality.
- Developed and consumed REST APIs for data exchange between Android apps and web platforms.
- Integrated payment gateway APIs to enable secure online transactions.
- Collaborated with system analysts to understand project requirements and ensure functional alignment.
